Remarks:			
<p>Attached for your signature is a memorandum announcing Dr. Belden's presentation 8 June and assigning quotas for the available seats in the auditorium. Quotas have been tilted heavily in favor of DD/P and DD/I because of their concentration of Intelligence Officers. Sufficient seats (74) are available to accommodate all those in the DCI area who missed the presentation 11 May.</p>			
<p>Is desired that substantially all those officers be given a chance to hear Dr. Belden, at least two more presentations will be necessary.</p> <p style="text-align: right;">AMW</p>

CONFIDENTIAL

26 MAY 1966

MEMORANDUM FOR: Deputy Director for Intelligence
Deputy Director for Plans
Deputy Director for Science and Technology
Deputy Director for Support
Deputy to the DCI for National Intelligence
Programs Evaluation *
General Counsel
Inspector General
Director of National Estimates

SUBJECT : Crisis Management - Human Communications

1. The Pearl Harbor analysis presented by Dr. Thomas G. Belden of the Institute for Defense Analyses on 11 May to a group of senior Agency officials proved to be a most interesting and valuable session. Arrangements have therefore been made to repeat the 45-minute presentation for a much larger group on 8 June at 1:30 p.m. in the auditorium.

2. Dr. Belden's presentation, which demonstrates the essentiality of precise use of language in human communications through an analysis of events leading up to the attack on Pearl Harbor, has special significance for all intelligence officers. To permit as many such officers as possible to attend the 8 June presentation, quotas have been assigned as follows:

DD/I	175
DD/P	175
DD/S&T	50
DD/S	25

Each independent office and element of the DCI's office may determine its own attendance requirement.

3. The title of Dr. Belden's presentation is "Pearl Harbor: A Failure of Human Communications."
